

Team Name:

The Goons

Document Version/Date:

9/25/20

Corbin Robinson

Team Members and their associated roles:

Corbin Robinson - Team Leader, Planning manager. Keeping track of progress, planning goals and checkpoints. Interfacing with Prof Cantrell.

Ethan Smith - Development Manager. Guiding team in designing and developing the product. Living reference sheet.

Zaniken Gurule - Support Manager. Documentation.

Parker Rosenberg - Quality Manager. Testing, quality management. Aesthetic choices.

Team Member Organization/Justification:

We will be using an open team style. This will be the best organization strategy because we will all be learning new stuff simultaneously and the collaborative nature of this style will allow for more effective learning and thus more productivity.

Communication System:

*Discord - Primary chat and voice communication.*

*Google Drive - Collaboratively Editing files and documents.*

*GitHub - Repository.*

Team Expectations:

Github commit history will be able to prove that everyone is contributing to the project on the code side, and keeping attendance at meetings will show that everyone is showing up to group meetings.

Everyone is expected to write some portion of the project, and everyone is expected to show up to all(/most) of the team meetings.

By Adding my name below this line I acknowledge that I agree to the above responsibilities assigned to me and I understand.
